Dear Aimin Liu, (as private and confidential)

UTSA Course Evaluation Survey Results

Dear Aimin Liu,

In the attachment you will find the evaluation results of the survey 12192 CHE 4303 001 Biochemistry(Q).

The overall indicator is listed first. It consists of the following scales:

The overall indicator is followed by the individual average values of the scales mentioned above. In the second part of the analysis the average values of all individual questions are listed.

If you have questions about the evaluation system please contact Leanne Charlton or Doug Atkinson at evaluate@utsa.edu

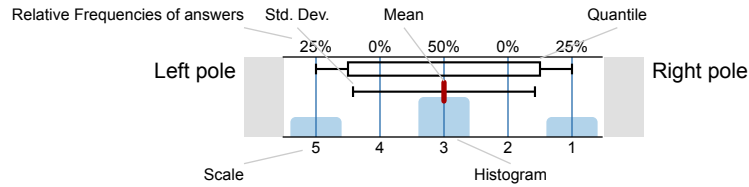

Aimin Liu

12192 CHE 4303 001 Biochemistry(Q) (18 Fall)

Legend

Question text

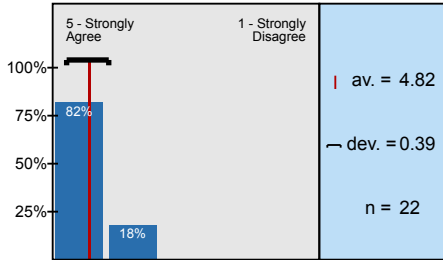

n=No. of responses
 av.=Mean
 dev.=Std. Dev.
 ab.=Abstention

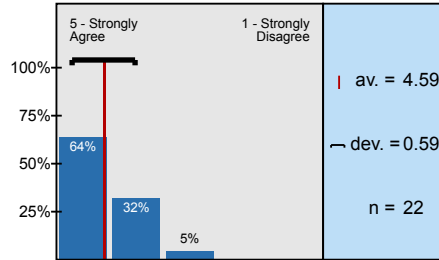

<p>1. The instructor clearly defined and explained the course objectives and expectations.</p>		<p>1 - Strongly Disagree</p> <p>n=22 av.=4.82 dev.=0.39</p>
<p>2. The instructor communicated information effectively.</p>		<p>1 - Strongly Disagree</p> <p>n=22 av.=4.59 dev.=0.59</p>
<p>3. The instructor was prepared to teach for each instructional period.</p>		<p>1 - Strongly Disagree</p> <p>n=22 av.=4.82 dev.=0.39</p>
<p>4. The instructor encouraged me to take an active role in my own learning.</p>		<p>1 - Strongly Disagree</p> <p>n=22 av.=4.64 dev.=0.66</p>
<p>5. The instructor was available outside of class either electronically or in person.</p>		<p>1 - Strongly Disagree</p> <p>n=21 av.=4.57 dev.=0.68</p>
<p>6. My overall rating of the course is:</p>		<p>1 - Poor</p> <p>n=22 av.=4.64 dev.=0.49</p>
<p>7. My overall rating of the teaching of this course is:</p>		<p>1 - Poor</p> <p>n=22 av.=4.59 dev.=0.67</p>

Histogram for scaled questions

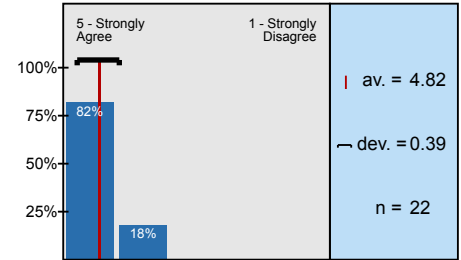

1. The instructor clearly defined and explained the course objectives and

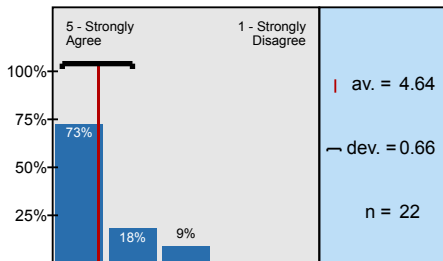

2. The instructor communicated information effectively.

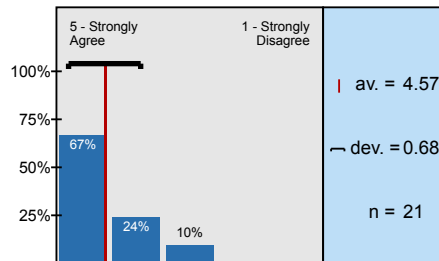

3. The instructor was prepared to teach for each instructional period.

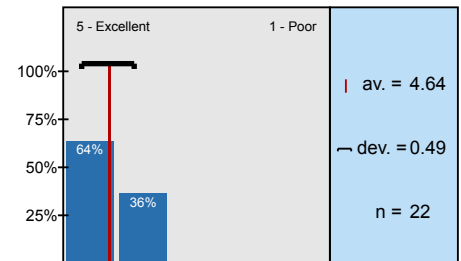

4. The instructor encouraged me to take an active role in my own learning.

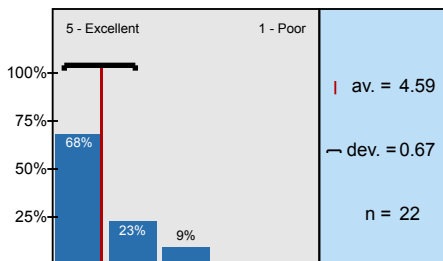

5. The instructor was available outside of class either electronically or in person.

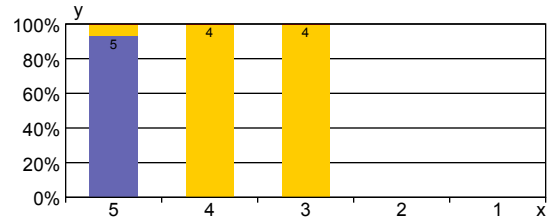

6. My overall rating of the course is:

7. My overall rating of the teaching of this course is:

y	5	4	3	2	1	
x						
5	93.3%	6.7%	0%	0%	0%	68.2%
4	0%	100%	0%	0%	0%	22.7%

Comments Report

Your written comments are an important part of your course and instructor evaluation. Please provide feedback in the box below on aspects of the course and/or the instructor that were most effective or need improvement. Student comments will be provided to your instructor only after course grades have been submitted. The instructor may, but is not obligated to, share these comments with others or include them in any evaluation process.

- Could be a little more open to students opinions and not get too upset about student suggestions or reasonings but overall very good class and instructor.
- Dr Liu is very knowledgable and smart. He is helpful with pointing out useful concepts for study. A good biochem prof!
- Dr. Liu is an excellent instructor. He teaches and supplements the textbook information with valuable perspective. He is a great teacher that asked questions that reminded me why I am fascinated by biochemistry. UTSA needs to value their students and get more high-quality teachers like Dr. Lui. As for the course, he provided powerpoint presentations with valuable information that I will take with me forever. His exams are fair and he even adjusts difficulty based on how the class did on the prior exam. I would really enjoy a biochemistry II course with Dr. Liu.
- Dr. Liu is great, passionate about his work and sharing biochemistry with us
- Dr. Liu is one of the best biochemistry professors at UTSA. He's really straight forward on what he wants you to learn. He made biochemistry lecture a really enjoyable course.
- Dr.Liu was always prepared to teach and kept on track with the syllabus. I really enjoyed taking his class this semester. My only comment would be if he could make the lecture slides available one day ahead so students can know what is being discussed in lecture and have their notes already prepared.
- Excellent!
- Great class, turned out I really enjoyed biochemistry. I initially only took the course because I thought Liu was my biological father. My studies are inconclusive on this subject.
- Has animations that are helpful in studying. Exams are straightforward to the curriculum. Would recommend the professor and the course again.
- I enjoyed this class, I had never taken a biology class so it was a little different than what I was used to. Its a lot of memorization but I did learn a lot!
- Liu is a champ. Please give me an A+
- Mr. Liu did a really good job at teaching the course material by giving a better understanding of the big picture for each metabolic process, instead of emphasizing on the specific chemical reactions that occur in each process. The slides he posted were very relevant to the course and the exams as they provided all the information needed for the course. My only complaint was that some power points had mistakes specifically in L 17:Metabolic Interrelationship for Energy Production. Other than that Mr. Liu did a great job.
- Only thing I would have liked different was instead of having a self study day the class before an exam he would lecture. Really enjoyed his lectures and I hope he is successful in having Biochemistry II be a requirement for degree plan.
- Professor Liu is a very excellent and knowledgeable instructor. He showed up ready to teach every lecture period and very clearly defined what we were going to learn. The provided slides were very comprehensive. Any questions asked were answered, he is an excellent biochemist
- Recommend creating a review outline for tests or having an in class review of important topics before each test since there's an extensive amount of material that could be on the test.
- The course itself is difficult, so it was an not easy class. Dr. Liu, however, had prepared lectures and aiding materials such as animations and games that we could use to enhance our understanding of the material. He accommodated us as we struggled through mastering the material. Thank you, Dr. Liu.
